

Park Sentry™

*Specifically engineered
to protect vehicles
and garage columns*

Superior material protects vehicles and columns

- Made of ARPRO®, a high-tech material specifically engineered to absorb impact
- Oil, chemical, water and flame resistant and 100% recyclable
- Thin design virtually adds space to parking structures – vehicles can now park closer to columns
- Interlocks at corners for edge-to-edge protection
- Specially designed flat panels give progressive resistance, offering soft protection for slight bumps, and more resistance when needed to absorb harder collisions
- Extra thickness at corners to resist damage at the most vulnerable spots

Reduces garage maintenance, improves appearance

- Hides damaged columns and walls without expensive paint job
- Seamless design modernizes the look of any garage
- Available in 2 standard colors: black & yellow
Custom colors available upon request

Park Sentry™ includes: planks, corners, key-locks and straps

Infinitely customizable to fit any column

- Default size fits 24" x 24"/61cm x 61cm
- Cutting guides for error-free downsizing
- Cuts easily to fit around poles, pipes and curbs
- Extensions available to fit flat walls and larger columns

Installs in minutes

- No tools necessary
- Modular pieces interlock using the included key-lock system
- Can be mechanically attached to walls for added security
- Replacement pieces can be attached without replacing the entire structure
